SUMMARY OF QUALIFICATIONS

Career objectives: Software engineering.

Tech stack: HTML, CSS, JavaScript, PHP, C, Yii, React, Ant Design, React Routers, Redux, Node.js, Express, MySQL, AWS Lambda, CloudFront, S3, CI/CD, DynamoDB, Adobe XD.

Languages: Fluent in Hindi, Urdu and English. Basic in Arabic.

EXPERIENCE

Mar 21 – May 21 **Souqalmal – Front End Web Developer Intern**

Project: Part of agile team revamping Souqalmal's financial products vertical

- Converted the Adobe XD design template to React TypeScript components.
- Used ANT Design React library to generate the React components.
- Used Redux for state management.
- Used React routers for routing management.
- Used React react-i18next library for localisation.

Feb 21 – Mar 21 **Laimoon – Full Stack Web Developer Intern**

Project: Part of moving admin dashboard from monolithic to microservices

- Built back-end using Node.js and Express framework.
- Used MySQL database in backend for CRUD operations.
- Used Axios, JWT security and React Routers.
- All systems deployed Serverless using AWS Lambda.

Project: Creating landing page and application form for TopInterns candidates

- Designed and built landing page using HTML and TailwindCSS.

Project: Transforming existing web pages from English to Arabic.

- Used HTML and TailwindCSS for RTL page generation.

Nov 20 – Jan 21 **TopInterns – Full Stack Web Developer Virtual Internship (Bootcamp)**

Capstone Project: Twitter Clone

- Used Axios for AJAX in JSON format with backend REST API.
- Built backend using Node.js and Express framework using MySQL.

EDUCATION

Sep 08 – Mar 20 **EFIA School, Abu Dhabi UAE – CBSE (Grade 12)**

Total 88%. Physics (A), Chemistry (A), Maths (B), Biology (B), and English (A).

Aug 20 – Oct 20 **Coursera – Computational Neuroscience**

Used MathLab to process and perform algorithms for neuron functioning.

Jul 20 – Aug 20 **BITS Pilani, Dubai – Bio Technology**

Learned technologies in bio-world to benefit the health of the planet.
